Los Rios Gmail
Don't be left behind- Upgrade to Gmail!

IMPORTANT! All Los Rios and Folsom Lake College communication with students is via the Los Rios Gmail system. If you do not activate your Gmail email account, you will NOT receive any emails from the District or college - being auto-added from wait lists, when you owe fees and will be dropped if you don't pay, etc. And, if you want to manage your communication only through your personal email (i.e., Hotmail, Yahoo, etc.), you MUST forward your Los Rios Gmail email to your personal email account - if you don't, you will NOT receive Los Rios email communication.

CONTINUING STUDENTS - You must upgrade your Los Rios iMail account to Gmail. DO IT NOW by going to: https://appstools.losrios.edu/upgrade/. If you would like to forward emails to your personal email account, please follow the steps below.

NEW STUDENTS - When you apply, you will automatically be issued a Gmail account. If you would like to forward emails to your personal email account, please follow the steps below.

Forward mail to another account - Gmail lets you automatically forward incoming mail to another address. Here's how to forward messages automatically (for a video of this process, go to: http://googlegreg.blogspot.com/2013/02/forward-los-rios-gmail.html):

1. Log into your new Los Rios Gmail account.
2. Click the gear icon in the upper right, then select Settings.
3. Click the Forwarding and POP/IMAP tab.
4. From the first drop-down menu in the "Forwarding" section, select 'Add a Forwarding Address.'
5. Enter the email address to which you'd like your messages forwarded.
6. For your security, we'll send a verification to that email address.
7. Open your forwarding email account, and find the confirmation message from the Gmail team.
8. Click the verification link in that email.
9. Back in your Gmail account, select the 'Forward a copy of incoming mail to...’ option and select your forwarding address from the drop-down menu.
10. Select the action you'd like your messages to take from the drop-down menu. You can choose to keep Gmail's copy of the message in your inbox, or you can send it automatically to All Mail or Trash.
11. Click Save Changes.
